## About Joel:

Joel Hansen is a professional guitar teacher, musician, performer and arranger. Along with a Bachelors of Performance degree from VCU in Classical Guitar, Joel has studied with renowned artists such as Larry Snitzler (head of the George Mason University Guitar Department), Ken Karsh (Jazz Guitar professor at Duquesne University) and Glen McCarthy (as Grammy-nominated music educator from the D.C. area).

Mr. McCarthy himself described Joel as "...playing with sensitivity and an intuitive grasp of music. He is equally adept at playing a classical study, composing a jazzy tune or ripping a rock guitar solo."

In addition to sharing his love of guitar with students, Joel plays drums (in a local metal rock band), bass, keyboard and sings as well.
