Dear St. Michael's Rising Sixth Graders and Parents,

We are working hard to get ready for your arrival in Middle School. Spanish meets five out of seven days in sixth grade and is a graded, core academic class, rather than an enrichment class. It is part of a three-year program which will let you complete a high school Spanish 1 credit by the time you graduate from eighth grade. Many students will also complete Spanish 2 by the time they leave St. Michael's.

We will review the material covered in the Lower School during the first few weeks of Middle School, but the first quarter will be stressful if you forget what you have learned. Thus, during the summer, please review as often as you can. You may use your notes from fifth grade Spanish and practice online at the following sites:

Please bring a note from home confirming that you did at least one activity per category 1-7 (the more the better) over the summer. The note will be due the first week of school. You will get more benefit by spreading your work out over the entire summer than by cramming in August.

We look forward to a great year. ¡Nos vemos!

Sra. Cristina Whitaker
